Seattle, Washington 98101

Dear Mike;

I wish to thank you and the others at Region X for taking the time to meet with Rick Shafer, Tom Tibbits, and myself to discuss our Prudhoe Bay development.

In response to requests by Dean Wilson and others present, I have enclosed several copies of a simplified map of the Prudhoe Bay Unit area and a booklet that describes the operations within the oil field. Please distribute copies to those that may have an interest.

We anticipate having some initial information on our air monitoring and permitting plans in about two weeks and would like to discuss them with Region X soon afterwards. If this is agreeable with you, I will call you when the information is ready in order to set a date.

Sincerely,

C. P. Falls
